

### UCLA Lecture Series Slated By AiResearch

For the first time a course on "Thermal Management of Manned and Unmanned Spacecraft" will be conducted on the UCLA campus by Dr. John L. Mason and Aaron Shaffer of the Garrett Corp.'s AiResearch Manufacturing Co. The course is designed for engineers and scientists in the aerospace industry who wish to explore the thermal aspects of space systems, subsystems and component design. The short course will include nine guest lecturers from a wide spectrum of the aerospace industry. It will be conducted daily from 8 a.m. to 4:30 p.m. starting Sept. 5-15.

CURRENT ANNUAL RATE PAID QUARTERLY

EACH ACCOUNT INSURED UP TO \$10,000

CARSON AND CRENSHAW... A Torrance policeman gets details of an accident Friday afternoon at the intersection of Carson St. and Crenshaw Blvd. He is shown talking with the truck driver, Hugh C. Murphy, 26011 Pennsylvania Ave., right, and George R. Tally, 2436 W. Lomita Blvd., Lomita, driver of the other vehicle involved, a station wagon. A passenger in Tally's vehicle, Hattie Bell Tally, 56, was injured. (Herald Photo)

### Engle Pushes Bill to End Hijacking of Planes

New Federal legislation providing life imprisonment for hijacking commercial aircraft such as the Eastern Airlines turbo-jet recently seized and forced to land in Cuba has been introduced in Congress by Senator Clair Engle (D. Calif.).

The California Senator has offered amendments to S.2268, his own bill amending Federal Aviation Act of 1958, to extend laws covering piracy of the high seas to commercial aircraft as well.

"At the present time," Senator Engle said, "hijacking of

an airliner is obviously an act of piracy, but can't be punished as such because of inadequate laws."

HE SAID HIS proposed legislation has specific reference to the incident in which a Cuban-born citizen of the United States boarded an airliner in this country, entered the cockpit soon after takeoff, drew a gun and forced the pilot to fly to Havana.

Senator Engle's bill, S.2268, is designed to take care of various inadequacies in the law governing crimes aboard commercial aircraft, including assault, murder and robbery.

His new legislation covering piracy in the air is an amendment to that bill which has been referred to the Aviation Subcommittee of the Senate Commerce Committee on which he serves.

AT THE SAME time, Senator Engle has introduced other amendments covering threats and intimidation of crew members of commercial planes and carrying of concealed weapons on commercial planes.

Assaulting or threatening an airline crew member would be punishable by a fine of up to \$10,000 or imprisonment from 20 years to life. Carrying of a concealed weapon would bring a fine of \$1,000 or up to year in jail.

### Youths Attend Summer Camp

Danny K. Morse, 8, of 134 E. 213th St., Torrance, and Lucinda Lee Watson, 7, of 638 Harbor Hills, Lomita, will leave Monday for two weeks at the Crippled Children's Society Camp Paivika near Crestline.

### Home Entered By Burglars

Items totaling about \$200 were stolen from the home of Robert Hamlin of 21601 Anza Ave while he was on vacation. The burglars entered through a bedroom window and took two clocks, jewelry, a razor

and rifle, police said. Hamlin was informed by a neighbor of the theft when he returned home Sunday.

The DIFFERENCE Is HAPPINESS

Millions have found that true happiness is not in wealth, social position or praise of men—but in dedication of their lives to Christ.

**MODERN GAS** for delicate-touch cooking!

**ADEQUATE WIRING** for modern lighting!

## balanced power homes

give you the best of modern gas and electricity...  
for easiest living at lower cost!

Shopping for a new home? Then consider **BALANCED POWER** homes—the most logical, common-sense approach to modern home design. **BALANCED POWER** assigns each household job to the power that does it best. That means modern gas does the cooking, heating and air conditioning, clothes drying, refrigeration, and water heating. Adequate wiring with plenty of outlets handles such jobs as modern lighting, TV sets, dish-

washers, and all the plug-in appliances you want.

The **BALANCED POWER** plan is the smart way to live modern in Southern California. It saves you time and it saves you money. It puts the best of both modern gas and electricity at your command. Be equipped for easiest living at lowest cost. Buy where you see the big blue **BALANCED POWER** sign displayed by leading builders throughout the Southland.
